

What does courage mean to you?

When you feel courageous where does your courage come from?

---

### Bill McHie - Courageous + Contagious

“**Courage** to me is just doing something out of your comfort zone, nothing extraordinary you think, until it becomes powerful for somebody else.”

“...all of a sudden you are stepping up and doing something that you never thought or dreamed you could possibly do.”

“...people who are generally caring for you or watching out for you, that's the inspiration. That's what gives you the confidence and courage.

“I didn't think of the word **contagious** as being something that I could own...it's the things that you see in other people that have affected you that makes you want to pass that along.”

“**Generous?** I just want someone else to experience what I've experienced!”

---

Can we be courageous in our giving to support the contagious generosity that Bill finds at Wesley?  
Give courageously.

**Sunday, October 28th - Stewardship Sunday**
